New York Stock Market

New York, November 6.—During the first half of to-day's session on the Sock Exchange the undetone of irregularity and indecision suggested the thought that the speculative element seemed unable to grasp the significance of yesterday's election.

In the afternoon, however, a concerted buying movement in the speculative favorites, chiefly Union Pacific, Canadian Pacific, Reading, United States Steel and Amalgamated Copper, sent these and other issues up to five points from the lowest. There was some shading of prices, due to profit-

pent these and other issues up to ave points from the lowest. There was some shading of prices, due to profit-taking and 6 per cent money, but the movement was resumed and prices attained a higher level in the final dealings, with particular strength to the close. Trading in the last two hours lifted the day's total well above all recent records. General conditions abroad were un-doubted factors in the rise. Advices

General conditions abroad were undoubted factors in the rise. Advices 11 from Continental centres imparted a more hopeful view to the Balkan situation, and the trend of events in London. Faris and Berlin indicated Europe's financial interests were prepared to meet the supremacy of the Democratic party in the United States with Absolute equanimity.

Call money was easier at the outel, opening at 5 per cent, but advancing to 6 in the final hour. The bond market was broad, active and firm. Total sales, par value, amounted to \$2,500,000. United States bonds were unchanged on call.

Through J. B. Dowden, a citizen of Henrico County, the people who reside at Highland Springs and at other points along the route of the line to Seven Pines are asking that the transfer privileges with the city lines which they enloyed prior to the sale and provent company to the new concern, be restored. In approving the sale, the City Council took care of only the transfer privileges within the city lines and power company to the new concern, be restored. In approving the sale, the City Council took care of only the transfer privileges within the city lines and power company to the new concern, be restored. In approvi sale, the City Council took care of only
the transfer privileges within the city
limits, which are seldom or never used,
since the road runs for only four
blocks on the city's streets, going
then into the county.

Now the people who formerly enjoyed a five-cent fare must walk to
and from the terminal at Twenty-ninth

and Post the terminal at I wenty-ninta and P Streets, or pay ten cents fare. It will be the defense of the Rappa-hannock line that it cannot operate without great loss if it is required to grant transfers. It is the aim of the road to build eventually to Urbanna on deep water.
